

## 2. Phishing Simulation Activities:

- Tools: Gophish, Evilginx2.
- Tasks: Set up phishing campaign, capture credentials.
- Brief:
- Campaign Setup: Clone login page with Evilginx2; send via Gophish. Test on VM.

The screenshot shows the Gophish web interface running in a browser. The page title is 'Sending Profiles'. A green banner at the top indicates 'Profile added successfully!'. Below the banner is a '+ New Profile' button. A table lists the profiles:

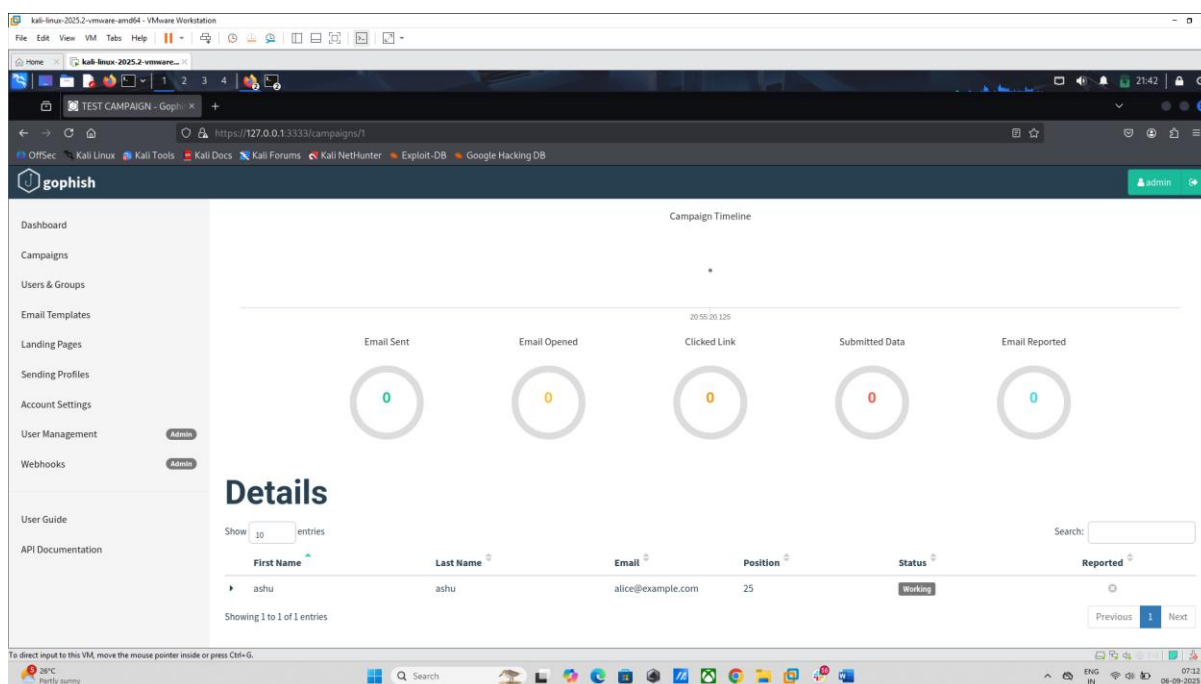

Name	Interface Type	Last Modified Date
test	SMTP	September 5th 2025, 8:50:16 pm

Below the table, it says 'Showing 1 to 1 of 1 entries'. There are 'Previous' and 'Next' buttons. The left sidebar contains navigation links: Dashboard, Campaigns, Users & Groups, Email Templates, Landing Pages, Sending Profiles (active), Account Settings, User Management, Webhooks, User Guide, and API Documentation. The top right shows an 'admin' user profile.

The screenshot shows the Gophish web interface running in a browser. The page title is 'Users & Groups'. A green banner at the top indicates 'Group added successfully!'. Below the banner is a '+ New Group' button. A table lists the groups:

Name	# of Members	Modified Date
TESTING GROUP	1	September 5th 2025, 8:53:14 pm

Below the table, it says 'Showing 1 to 1 of 1 entries'. There are 'Previous' and 'Next' buttons. The left sidebar contains navigation links: Dashboard, Campaigns, Users & Groups (active), Email Templates, Landing Pages, Sending Profiles, Account Settings, User Management, Webhooks, User Guide, and API Documentation. The top right shows an 'admin' user profile.

- Credential Harvest: Log captured data:

Timestamp	IP Address	Username/Password	Risk	Notes
2025-08-29 12:00:00	192.168.1.50	testuser/pass123	High	Successful capture

## Captured

Timestamp	IP Address	Username/Password	Risk	Notes
2025-09-06 07:14:012	44.228.249.3	test/test	High	Successful capture
